SCIENCE EDUCATION

CONTENTS

Issue 1, January

Student Views of Collaborative Concept Mapping: An Emancipatory Research Project
W.-M. Roth 1

Attitude Research in Science Education: Contemporary Models and Methods
F. E. Crawley and T. R. Koballa, Jr. 35

Family Behavior and Learning in Informal Science Settings: A Review of the Research
L. D. Dierking and J. H. Falk 57

Case of Content: Studying Content as Part of a Curriculum Process
D. Tomanek 73

SCIENCE TEACHER EDUCATION, *Thomas Dana and Vincent Lunetta, Section Editors*

Erzberger's Dilemma: Validity in Action Research and Science Teachers' Need to Know
A. Feldman 83

ISSUES AND TRENDS, *Glen S. Aikenhead, Section Editor*

New Minds for a New Age: Prologue to Modernizing the Science Curriculum
P. DeHart Hurd 103

Issue 2, April

Science, Stories, and Sense-Making: A Comparison of Qualitative Data from a Wetlands Unit
C. Hulland and H. Munby 117

The Relationship between Visitor Characteristics and Learning-Associated Behaviors in a Science Museum Discovery Space
D. L. Boisvert and B. J. Slez 137

LEARNING, *James Steward and Peter W. Hewson, Section Editors*

Children's Concepts about Weight and Free Fall
V. Bar, B. Zinn, R. Goldmuntz, and C. Sneider 149

Students' Conceptions of the Top-Level Structure of Physics Texts
I. Brincones and J. Otero 171

ISSUES AND TRENDS, *Glen S. Aikenhead, Section Editor*

Scientific Literacy for Decisionmaking and the Social Construction of Scientific Knowledge
W. H. Bingle and P. J. Gaskell 185

Issue 3, June

Editorial Policy Statement and Introduction
R. A. Duschl, Editor 203

Science Teacher Education Section—Editorial Policy Statement
T. M. Dana and V. N. Lunetta, Section Coeditors 209

Learning Section—Editorial Policy Statement
P. W. Hewson and J. Stewart, Section Coeditors 213

International Science Education Section—Editorial Policy Statement
W. W. Cobern, Section Coeditor 217

Issues and Trends Section—Editorial Policy Statement
G. S. Aikenhead, Section Editor 221

LEARNING, *James Stewart and Peter W. Hewson, Section Editors*

On Theory of Learning and Knowledge: Educational Implications of Advances in Neuroscience
G. D. Hendry and R. C. King 223

Understanding a Basic Biological Process: Expert and Novice Models of Meiosis
A. C. H. Kindfield 255

INTERNATIONAL SCIENCE EDUCATION, *William W. Cobern, Section Editor*

Gender, Ethnicity, and Students' Perceptions about Science and Science-Related Careers in Fiji
L. J. Rennie and M. Dunne 285

ISSUES AND TRENDS, *Glen S. Aikenhead, Section Editor*

Bringing Pupils' Learning Closer to a Scientific Construction of Knowledge: A Permanent Feature in Innovations in Science Teaching
D. Gil-Pérez amd J. Carrascosa-Alis 301

COMMENTS AND CRITICISMS

Comment on "A Challenge to Conceptual Change"
G. Rankin 317

A Response to Rankin's Comment
C. J. Linder 321

Issue 4, July

Elementary Students' Responses to Questions about Plant Identification: Response Strategies in Children
D. Tull 323

Re-examining Connections: Museums as Science Learning Environments
L. Ramey-Gassert, H. J. Walberg III, and H. J. Walberg 345

SCIENCE TEACHER EDUCATION, *Thomas Dana and Vincent Lunetta, Section Editors*

Bridging the Gap: An Analysis of the Needs of Second-Year Science Teachers
J. Loughran 365

ISSUES AND TRENDS, *Glen S. Aikenhead, Section Editor*

Multiculturalism, Universalism, and Science Education
W. B. Stanley and N. W. Brickhouse 387

Issue 5, September

A Case of Dilemmas: Exploring My Assumptions about Teaching Science
D. Tomanek 399

Science: The Salters' Approach—A Case Study of the Process of Large Scale Curriculum Development
B. Campbell, J. Lazonby, R. Millar, P. Nicolson, J. Ramsden,and D. Waddington 415

SCIENCE EDUCATION ASSESSMENT INSTRUMENTS

Development and Validation of a Curriculum Theory–Based Classroom Environment Instrument: The Technical and Emancipatory Classroom Environment Instrument (TECEI)
C. W. Bowen 449

LEARNING, *James Stewart and Peter W. Hewson, Section Editors*

The Nature of Fourth Graders' Understandings of Electric Circuits
D. P. Shepardson and E. B. Moje 489

COMMENTS AND CRITICISMS

A Critique of Hodson's "In Search of a Rationale for Multicultural Science Education"
H. Williams 515

Response to Williams' Comment
D. Hodson 521

Issue 6, November

Assessing Students' Abilities to Construct and Interpret Line Graphs: Disparities between Multiple-Choice and Free-Response Instruments
C. A. Berg and P. Smith 527

Comparison of Perceptions among Rural versus Nonrural Secondary Science Teachers: A Multistate Survey
W. E. Baird, J. P. Prather, K. D. Finson, and J. S. Oliver 555

Software Support for Students Engaging in Scientific Activity and Scientific Controversy
V. Cavalli-Sforza, A. W. Weiner, and A. M. Lesgold 577

LEARNING, *James Stewart and Peter W. Hewson, Section Coeditors*

Does the Use of Analogies Contribute to Conceptual Change?
Z. R. Dagher 601
